

Moddocs Adds Recruiting to its Range of Outsourced Services

TORONTO, ON – November 3, 2008 – **Moddocs Outsourced Marketing** announced the launch of **Moddocs Recruitment Services** which is a cost-effective alternative to traditional methods of recruiting that saves companies both time and money.

“Moddocs Recruitment Services is directly targeted at the time consuming initial stages of recruiting” according to Randy Henderson, VP Sales and Marketing with Moddocs. “Managing the entire recruiting process internally can often be a daunting exercise especially if the responsibility falls to an inexperienced staff member. Using an automated process can exclude a significant number of qualified candidates. Traditional executive search firms charge a percentage of the first year salary which can be extremely expensive and not at all related to the amount of work involved in identifying and presenting candidates” adds Henderson

Moddocs Recruitment Services are available in two packages. The **Full Search** package is a comprehensive service that covers the entire recruiting process from the writing of the posting through to the acceptance of an offer by the candidate. The **Posting & Screening** option addresses the labor-intensive initial portion of the recruiting process from creation of the job posting through to and including the written report and list of candidates recommended for in-person interviews.

In conjunction with our **Outsourced Marketing Services**, we can act as a mentor to your new hire for a probationary period to ensure a smooth transition.
